

### **Reminder Time messaging for appointments and prevention clinics**

Reduce your missed appointment ratios. Reminder Time works seamlessly with your EMIS Patient Administration System (PAS) to deliver text or voice reminders of imminent appointments to patients. But our 2-way functionality means you can choose to let them respond too, giving notice of cancellations or reschedules. You can also use Reminder Time for your prevention clinics and QOF campaigns.

#### **SMS Text Messaging**

Send to mobile phones for instant broadcast straight to the people you need to reach

#### **Voice messaging**

Text-to-speech conversion of your message enables you to reach those with fixed line phones

#### **2-way or 1-Way**

Reminder Time has 2-way messaging as standard, but you don't have to ask for a reply. Its your choice

#### **Customise your message**

Tailor your message exactly how you want it. Customise up to 3 different responses

#### **alltime integration**

Reminder Time All Time integrates with EMIS for seamless reminder messaging and minimal user input

\* Message credits bought in advance. Software Fees and Limits are on an annual basis
